

Dear Parent or Guardian,

Ryan Health's school-based health center (SBHC) on your campus is now offering the **Pfizer COVID-19 vaccine** to students age 5-11 at our SBHCs. Vaccines are available to students every school day during the SBHC hours of operation (8:00am – 3:30pm).

The CDC recommends everyone ages 5 and older get a COVID-19 vaccine to help protect against COVID-19. We are excited to offer the Pfizer COVID-19 vaccine to all students, both enrolled and not enrolled in the School-Based Health Center. To schedule an appointment, please email us at school@ryanhealth.org or call us directly at 212-666-2261.

If your child is not yet registered with the SBHC, we invite you to take this opportunity to download and complete our fillable PDF consent form (attached to this email). Once completed, please send this form to us at school@ryanhealth.org. We are able to perform complete physicals, provide vaccine updates, treat illnesses, provide mental health services, and provide prescription refills from our SBHCs. Please note that we do not replace your child's primary care provider, and there is no out-of-pocket cost for the services provided at the SBHC. For more information and regular updates, please visit our website at ryanhealth.org/services/SBHC.

Sincerely,

Your Ryan Health SBHC Staff
